

ROBERT NIVON

SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

Hardworking individual with experience developing, testing, and debugging enterprise-level software applications using the latest coding and design standards. Operates well in both individual and team settings and can quickly adapt to meet the needs of the company. Eager to contribute my skills and knowledge to drive team success. Excellent problem solving and communication skills with a passion to learn from new technologies and implement them.

EXPERIENCE

Software Engineer

September 2022 - Present | Citibank, Irving, TX

- Developed enterprise-level Java applications for risk analysis using Java, Spring Boot, and Spring Batch on Linux and Windows.
- Built and maintained full-stack systems with React SPAs, backend batch services, and REST APIs, integrating with Oracle and Sybase databases.
- Wrote complex SQL queries to extract, manipulate, and validate data for critical workflows.
- Integrated external systems via REST APIs, parsing JSON responses to generate input files for batch pipelines.
- Managed code changes and collaboration using Git, ensuring maintainable and high-quality code.
- Ensured system reliability with JUnit testing, performance tuning, and troubleshooting production issues across the full stack.

Technology Intern

July 2021 - June 2022 | Edinburg Consolidated Independent School District, Edinburg, TX

- Managed hardware, network, and software updates across multiple school campuses.
- Diagnosed and resolved software and hardware issues, ensuring minimal downtime.
- Monitored system operations to proactively identify and address potential problems.

-  Weslaco, TX 78596

SKILLS

- **Languages:** Java, Python, C++
- **Frameworks & Libraries:** Spring Core, Spring Boot, Spring Batch, React
- **Databases:** SQL, Oracle, Sybase
- **Backend & APIs:** RESTful Services, API Integration
- **Testing:** JUnit
- **CI/CD & DevOps:** Jenkins, SonarQube, Tekton, Harness, uDeploy
- **Tools & Technologies:** Maven, Git
- **Operating Systems:** Linux, Windows
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Test-Driven Development, Concurrent Programming
- **Other:** Debugging & Troubleshooting, System Design Fundamentals

EDUCATION

Bachelor of Science (B.S.) in Computer Science

May 2022

University of Texas Rio Grande Valley, Edinburg
